DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-3, 7-9, 11-13 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3, 7-9, 11-13, and 16-50 are rejected under 35 U.S.C. 102(e) as being anticipated by Tanitsu et al. (US6238063).

With respect to claims 1-2, 11, 16-17, 19-20, 24, 27-28, 33, 36, 41, 45 and 48, Tanitsu show in Fig.1, 3a-4b, 6, 7b, 8, and 15-16 a projection exposure system, having at least one beam splitter 230 in a beam path of a pulsed laser light source said system having reflecting components 231-234 splitting a principal beam for the passage of a partial beam on at least one detour line 213 so that a beam

recombining element 230 joins the partial beam with the principal beam to form a total beam, said beam splitter having a mirror which is arranged at the Brewster angle (45 degrees) (col.15, l.6-7) to the beam path, said detour line having an easily detuned keppler telescope 61-62 positioned therein, and of such a length that an optical path difference of more than 0.5 m (col.16, l.53-64) is produced between the partial beams.

With respect to claims 3, 7, 18, 21, 29-30, 37-38, and 46-47, Tanitsu disclose in Fig. 16 at least three reflecting mirrors 231-234 form a detour line 213.

With respect to claims 8-9, 22-23, 31-32, and 39-40, Tanitsu disclose in Fig.16 two detour lines 213 and 214 are arranged in series (col.16, l.53-64).

With respect to claims 12-13,25-26, 34-35, 42-43, and 49-50, Tanitsu disclose the phase retarding plate (first quarter wave plate) 261 and 263 (col.17, l.35-44).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
